SAN JOSE. SAN JOSE.

BERFORD & CO'S LINE OF EXPRESS MAIL STAGES,

HALL & CRANDALL, PROPRIETORS,

ARE now running every morning to San Jose, leaving Breford & Co's office, in the Plaza, at 8 o'clock, A. M. and the City Hotel, in San Jose, at 7 o'clock, A. M.

The reduced rate of fare puts it in the power of every one to visit the beautiful and healthful valley of Santa Clara. There is no more charming drive in California than that from San Francisco to San Jose, and as one is whirled rapidly through the oak openings and across the level plains under the skilful driving of Professors Dillon or Crandal, who drive their own coaches, he finds that pleasure is united with business, and wonders he has never made the trip before.

The great advantage this line possesses over all others, is that the Stages were bought expressly for the road, and with a particular attention to SAFETY, while the drivers, who have served a long apprenticeship from New England to Mexico, make the QUICKEST time and NEVER MEET WITH ACCIDENTS, which are so likely to occur with the old fashioned stage coaches. We invite our friends to give the line a trial. n7tf BERFORD & CO.

NEW ARRANGEMENTS.

THE PROPRIETORS of the U.S. MAIL Line of Stages have discontinued running their line *through* by land between San Francisco to San Jose, and are now running a DAILY Line to and from the Embarcadero, in connection with the steamers WM. ROBINSON and NEW STAR.

National Railroad to the Pacific.

The project of a Railroad to the Pacific, is again being warmly agitated on the Atlantic side. The subject has been forcibly presented to Congress, and on the 17th of January, by permission of the members, Mr Whitney gave a lecture in the Hall of the House of Representatives at Washington which was largely attended.

It is perfectly clear to every intelligent mind, that a Railroad to the Pacific is demanded by every consideration of National policy and commercial interest: but it is not clear that Whitney's scheme is the right one. Congress should build the road, and build it at once, if at all. If Congress will not do it, then let a National company be chartered for that purpose. The City and State of New York could well afford to take fifty millions of stock in it—enough to construct half of it. San Francisco and California could, even at present, afford to subscribe for ten millions. The whole road might and ought to be constructed within the next ten years. With New York and San Francisco as the *termini*, these cities would become the greatest commercial emporiums in the world.

We are inclined to the opinion that something will be done besides talking before 1851 closes. The British are talking of taking the wind out of our sails in this matter, by constructing a railroad from Halifax across the continent. A volume of between 500 and 600 pages has been published in England, with plates and a map of North America down to the 40th degree of north latitude, detailing the plan of a railroad across Nova Scotia and the Canadas from Halifax to the Pacific. The route from Halifax to Quebec is already surveyed. The distance from England to China by this proposed road is shown to be *fifteen hundred* miles shorter than the nearest route across the United States. The cost of the road is estimated £14,000,000, averaging £5,000 a mile. It is proposed to set 20,000 convicts to work on the road, and to send over five millions of people from England, Ireland, and Scotland, to settle along the route, and populate it to the Pacific. This scheme is to raise Canada to great dignity, relieve Great Britain of her pauper burdens, regenerate the old monarchy, and establish her firmly on the American continent.

England *can* do this, and in the manner proposed. In fact, it would cost her no more than she is now paying for the support of her paupers and convicts. Although the route through the British possessions may be 1500 miles nearer, owing to the form of the earth, than the route in a lower latitude. Yet we have the advantage of having nearly half the distance from New York almost completed. The New York and Erie railroad, nearly 600 miles to Dunkirk, will be open in May. Thence to Galena will be open before the close of 1852. If Iowa had had the ability to promptly push the work forward from Galena through her territory, it would be so much gained. We have larger faith that we shall live to take the cars in San Francisco, and sit down in New York within *ten days*.

In a recent speech in the Senate, on the subject of a road from St. Louis to this city, Col. Benton remarked:

> "There is a new idea becoming current of late—a new born idea—that none but a man of science, bred in a school, can lay off a road. That is a mistake. There is a class of topographical engineers older than the schools and more unerring than the mathematics. They are the wild animals—buffalo, elk, deer, antelope, bears—which traverse the forest, not by compass, but by an instinct which leads them always the right way, to the lowest passes in the mountains, the shallowest fords in the rivers, the richest pastures in the forests, the best salt springs, and the shortest practicable lines between remote points. They travel thousands of miles, have their annual migrations backwards and forwards, and never miss the best and shortest route. These are the first engineers to lay out a road in a new country; the Indian follows them, and hence a buffalo road becomes a war path. The first white hunters follow the same trails in pursuing their game, and after that the buffalo road becomes the wagon road of the white man, and finally the macadamized or railroad of the scientific man. It all resolves itself into the same thing, into the same buffalo road; and thence the buffalo becomes the first and safest engineer. Thus it has been here, in the countries we inhabit, and the history of which is so familiar."

Vermont and Virginia.—The Legislature of Vermont recently passed resolutions in favor of peace, and directed the Governor to forward a copy to the Governor of each State in the Union. The Legislature of Virginia has adopted a resolution unanimously instructing the Governor to return the Peace Resolutions to Vermont, with a declaration that when Vermont shall prove her willingness to consult the peace of the Union by doing justice to the Constitution, it will be time enough for Virginia to consult with her on the peace of the world.

Expedition Returned.—The expedition under the command of Lieut. Derby returned on the government schooner Invincible, after an absence of four months. The vessel was taken thirty-five miles up the Colorado River, where the expedition left her and proceeded up the Gila in boats. Surveys were made of several rivers, and also of the islands in the gulf of California.

"The Old Diggins."—By a recent decree of the Neapolitan Government, the excavations at Pompeii are to be resumed; 20,000 ducats have been granted for the purpose. We fancy the "new diggins" in California will prove more profitable.

Our San Jose Correspondence.

San Jose, March 6, 1850,

Editors of the Pacific News:

In the Assembly, the bond of M. G. Vallejo was offered and ordered to be printed, and is enclosed. Some progress was also made on the bill regulating the courts. In the Senate, the bill to pay interest on warrants was taken up and after a little discussion, killed. It is thought by many that it was killed simply because it is contemplated to fund all the warrants at twelve per cent. per annum, and that a temporary granting of interest would be useless.

It is quite time the Legislature took hold of the finances of the State. With a petty debt of four hundred thousand dollars, her credit is of the most doubtless kind, as the price of her floating debt shows. It is not because the State is poor in resources that this is so. Far from it! It is simply because the Legislature is not true to the interests of the people, and because it does not at once take summary measures that will show her creditors that her will is good.

No sensible man can doubt for a moment, that the State has a right to fund the present debt, and it should be done at once, and taxation resorted to for the prompt payment of the interest. These things done, the securities will rise, and not until then.

A bill was passed by both houses to-day, absolving San Francisco county from the law requiring her to pay taxes for county purposes. This act will be signed to-morrow, and be in force on Saturday next, thus stopping the farther movements of the Courts tax gatherer.

Lithographed Letter Sheet.—We have received a beautiful letter sheet, embellished with a lithographic view of miners at work with long Toms, taken from a daguerreotype sketch by Messrs. Justh & Quirot, lithographers, No. 28 Jackson street. The engraving is executed in an accurate and scientific manner, representing the miners busily at work in digging, shoveling and panning out, with their cabins, and a forest of pine trees in the back ground. On the left of the sheet is a faithful portrait of a miner with his tools on his back, as he is going to work, and lower down is an Indian in full costume, with his quiver suspended to the limb of a tree, and he seated on the ground, mournfully reflecting upon the inroads that the rapid strides of civilization are making upon his peace and happiness. The work is gotten up in a very neat and tasty manner, and is highly creditable to the artist. It may be had of Messrs. Cook & Lecount, on Montgomery street.

Breach of Trust.—A person named Joseph Etherington, made an affidavit before the Recorder yesterday evening, that on last Tuesday and Wednesday he had deposited 54 ounces of gold dust with Mr. Henry Krause, a merchant on Washington street, and that last evening he went to make another deposit, and to his astonishment found, on opening his bag, that his gold had miraculously changed to shot and lead. The money deposited was placed in the hands of Henry Goldner, a partner in the concern, and was put in a drawer where the funds of the establishment were kept. Only the money of the complainant is missing, the other remaining untouched. A warrant has been issued for the arrest of the parties, and the case will undergo investigation to-day.

Gross Fraud.—An honest, hard working, laboring man, named John Cazet, who by dint of industry and perseverance had accumulated $2000, was swindled out of it some days since in a novel manner. The money he invested in goods, intending to go into the mercantile business, and had them placed aboard of the schooner Sophia, Capt. Andrew Joulard, to be shipped to Stockton. Since that time, nothing has been heard of the vessel, until within a few days since, authentic information was obtained that she was laying at anchor in the port of Trinidad. A complaint was made to the authorities last evening, and an officer was despatched to arrest the Captain, and take charge of the vessel.

Pacific Tract Society.—Annual Meeting.—The first anniversary of this excellent institution will be observed to-morrow evening at 7 o'clock. A report of its operations during the past year will be submitted, and several addresses will be delivered. Let all who take an interest in this important and useful department of benevolence attend the meeting and manifest their attachment to the enterprise by a palpable and substantial demonstration.

Got the worst of it.—A man named *Charles McDonald* with a bruised cheek and a black eye, made complaint that he had been assaulted by *John Simpson* on Pacific street yesterday, and that he had been severely beaten. The former's looks was convincing proof that he came off second best in the fight, and bears ample testimony to the pugilistic skill of his adversary.

An Owner Wanted.—We are requested to state, by the Marshal of the city, that he has in his possession seven boxes of cigars, of the "El Cruzado" brand, taken from a person who could not well account for the manner in which they became his property.

It is supposed that they have been stolen, and the owner is requested to come forward and claim them.

☞ We are requested to state that the Firemen had no part in breaking the railings, &c., during the row at the Jenny Lind Theatre on Thursday night; that if any thing of the kind *was* done, it was done by the populace who felt indignant at the course of one of the managers of the concern.

The Chesapeake.—The steamer Chesapeake, advertised to sail this afternoon for Klamath, Trinidad and Eureka, will not leave until Monday at 2 p. m.

Business in the Recorder's Court.

Jacob Holstein, being considerably intoxicated, delivered a boisterous speech on Sansome street, much to the annoyance of many good citizens, and against the peace and dignity of the city. Officer Clarke, testified that the prisoner was *non compus menti*, and he was discharged with the healthful admonition of being careful not to grace the prisoner's dock again with his presence.

George Wilson was brought up for an assault upon Thomas Watson at the New England House, on Pacific street. There being no witnesses present, the parties told their stories in a very confused and unintelligible manner, and in direct contradiction to each other. The evidence being exactly balanced, his Honor continued the case until other testimony could be obtained.

Milton Nelson was brought up on the charge of assaulting David M. Richards, a few evenings since, on Pacific street. Richards was indebted to Nelson for board, but pleaded in justification for non-payment, that a hat belonging to him had been wilfully or negligently destroyed at Nelson's house. When Nelson was called upon for a defense, he very frankly and candidly told his Honor, that the complainant was indebted to him for board and would not pay him; that being too small a man to whip, he concluded that he would take it out in shaking him.

There being a desire to obtain farther testimony, the cause was continued until to-day.

The case of Juan Silva, for a grand larceny was called up, and the chief witness being too unwell to attend, the cause was continued.

Stephen Davis was arraigned for having in his possession seven boxes of cigars, which he claimed under a title of purchase. Unfortunately for the prisoner his organ of locality is very defective, being unable to point out the place where he made the purchase. For the purpose of giving him time to reflect, he was remanded, until farther order from the court.

Norman Assing, Chidoc and Li-kid, were brought up on the charge of threatening the lives of Mr. Aphung and Miss Atoy; also, for an intent to forcibly abduct the latter. The affidavit of Aphung set forth that Miss Atoy was born in Canton, China, is 21 years of age and never married, and that she came to this country for the purpose of bettering her condition. The defendants allege that she has absconded from the bed and board of a loving and too confiding lord, and that under the laws of Confucius, they have a right to send her back.

The Recorder remarked that he had no doubt but that the defendants acted through ignorance, supposing that the laws were the same here in regard to that matter, as in China, and hence would not subject them to any punishment. They were required to give bonds to keep the peace in the sum of $2,000. The requisite bonds were made out and a string of hieroglyphics appended that would puzzle a Philadelphia lawyer to decypher. The parties then retired apparently in good spirits and well satisfied.

The War with Mexico.—We were yesterday much interested in the examination of a large volume containing a history of the war with Mexico, and accompanied by twelve large, beautiful and finely executed engravings, representing the various engagements which our troops encountered with the opposing forces. The whole is decidedly the best work of the kind we have ever seen and would be an invaluable addition to a library. A number of the officers attached to our Army, while in Mexico, who are now here, have examined the plates, and pronounce them the most faithful representations that have ever come before the public. Burgess, Gilbert & Still, on the Plaza, received some half dozen copies of the work by the last steamer, being the only ones in California.

Election in Marysville.—The elections for the different officers in Marysville under the new charter have transpired, and our friend R. H. Taylor, the senior editor of the *Herald* was a candidate for Alderman in the Fourth Ward, and was unsuccessful. He takes his defeat in a very pleasant and philosophic manner, and warns the council to keep themselves straight, as he is now perfectly free to find as much fault with them as he pleases. Dr. S. Miles, has been elected Mayor, and the following gentlemen Aldermen:

FIRST WARD.
L. W. Ransom, S. C. Stambaugh,
SECOND WARD.
F. Shaffer. B. Tallman,
THIRD WARD.
J. G. Smith, W. W. C. Rice,
FOURTH WARD.
S. C. Tompkins, Chas. Couillard.

Grand Masquerade Ball.—A grand masquerade ball will come off this evening, at the California Exchange, under the management of George H. Stephens, Esq. The saloon has been neatly and tastefully decorated, a splendid band of music engaged, and no expense or pains spared to make this the most magnificent affair of the season.

Family Christian Almanac.—A copy of the Illustrated Family Christain Almanac for 1851 has been laid upon our table. The work is gotten up in a very creditable manner. It is for sale at the office of the Pacific Tract Society on Washington street between Dupont and Stockton.

Duelling in Maryland.—The Reform Convention have instructed a committee to inquire into the expediency of making a person killing another in a duel, guilty of murder, and to have his property confiscated to the support of his victim's family. A very good suggestion.

☞ A Yankee auctioneer indulged in the following little bit of the pathetic: "Gentlemen, if my father and mother stood where you do, and didn't buy these boots, these elegant boots, when they were going for one dollar, I should felt it my duty as a son, to tell both of 'em that they were false to themselves and false to their country!"

BY LAST NIGHT'S BOAT.

News from the Sacramento Valley.

Gregory's and Freeman's Expresses were about even in delivering us last evening the Sacramento papers of yesterday morning, also a copy of the Marysville *Herald*.

Joseph Mornets, a Frenchman, obtained $3000 damages of A. Tulwiller for an assault and battery on him, at Sacramento.

Samuel Brannan has bought the Norris Ranche near Sacramento, with its buildings and improvements, for the sum $215,000.

Rich Claim.—Mr. Cromwell, of Murderers' Bar, lately sold a single lead upon the Middle Fork for $2,500.

From Bidwell's Bar.—A gentleman just down from this Bar, on Feather River informs the Marysville *Herald*, that a company of fourteen men took out at that place on Monday of last week *three pounds* of gold, as the result of their first days washing in the bed of the river this season.

A man was hung by the miners on the Middle Fork of the Yuba River, on Sunday last, for stealing mules; he being caught in the act.

GENERAL REMARKS.

The Happy Valley Free School was organized in the month of June last, under the charge of Mr. Samuel Newton, who, soon after its organization, resigned. Immediately upon his resignation, the duties of the charge were assumed by myself.

The duties I have found extremely laborious, as they must necessarily be in the absence of a suitable building, as well as many of the facilities for conducting such an enterprise in the midst of a very mixed population.

The school is chiefly made up from families residing in that portion of this city between California street, southward, to Rincon Point.

Such an unprecedented growth as this portion of the city exhibits, shows clearly the necessity of a free school in this vicinity, and that necessity must, of course, keep pace with its rapid growth.

In the main, a remarkable fondness for school, delight in the participation of its exercises, and a degree of improvement have characterized the children and youth connected with the school, such as I have never met with elsewhere.

Detention of a would be Absquatulator.—On Wednesday last, just as the steamer was sailing, a complaint was made before Justice Brown, that a passenger was carrying with him gold not his own. A warrant was placed in the hands of Officer Cummings, who, by great exertion, succeeded in boarding the steamer after it had got under way, and bringing back the *hombre* charged with the theft of $1700. An examination was at once had before the Justice, who directed a search to be made of the prisoner's person, which brought to light a large sum of money. The hour being late, the farther examination was postponed until next morning, when no *crime* was apparent, but a difficulty growing out of a partnership affair, a compromise was made, and the accused disgorged $1000 for the complainant, and $50 for the officer's trouble, and expenses (which were $20 for him of the boat,) the whole sum was paid into the hands of the case, who upon being requested by the officer to pay the $50 to him, declined, alleging that the county paid the officer, but offered to pay something towards boat hire.

CALIFORNIA EXCHANGE.

AT THE URGENT SOLICITATION of many of the merchants of this city, the undersigned has concluded to establish a "MERCHANTS' EXCHANGE," in this well known building at the corner of Clay and Kearney streets, fronting on the Plaza. His object is to make it similar in character to that of the city of New York, establishing regular 'change hours. An extensive reading room with all the latest Commercial and Marine News, Foreign and Domestic, to be under the charge of capable, faithful, and attentive clerks, so as to afford visitors at all hours, all the latest news of that character. On stated evenings of the week, as may be agreed upon by merchants who may favor the enterprise, meetings will be held for the regulation of the association, and such other purposes as may be advisable. The proprietor therefore earnestly calls the attention of the business men of the city to this enterprise, and hopes that it may meet their approbation.

The size of this magnificent building, its central and business location and capacity, render it a most desirable place to hold political and other public meetings, for which purpose it can be had when not otherwise engaged. It is becoming the usual place of sales of real estate, and the attention of auctioneers and others is directed to this fact. The proprietor pledges himself to spare no pains or expense to make the establishment one every way worthy of the city, and suited to its wants.

Geo. Wilkins Kendall,
author of "The Texan Santa Fe Expedition," etc., published by Appleton & Co., New York.

Most of the 12 illustrations of this work were drawn on the spot by the Artist, and are strictly true to nature in the Ground, Landscape, Buildings, Coloring, and Costume. The best Lithographers, Colorists, and Printers were employed in its execution. The battles of no country have been illustrated in a richer, more faithful, or more costly style of lithography. This magnificent work of art, one of the finest known to modern times—will add richness to the most ornate drawing room, the library of gentlemen of taste, or the archives of public bodies and institutions.
